Hi Ivan,

Here's my list of revisions. This is for the lender side. I'm not quite finished the lender side, mostly for how it interacts with the broker side, so I'll include that in a future already:

1. Can you change dwelling type to checkboxes please in the lender filters? We need to be able to exclude certain types.
2. Can you please add the copywrite at the bottom as we had on bubble and can you please add patent pending. So "© 2026 LenderMatch™ Inc. All rights reserved.
3. We had talked about having lenders and brokers have a pop up every time we changed the TOS or Privacy policy so they have to re-agree to everything. Is that fun
4. Can you please have the lender logos showing in color, and a bit bigger? They look good on a mobile phone but very small on a computer. Also, please remove the

5. Please remove this verbiage too under the welcome back:

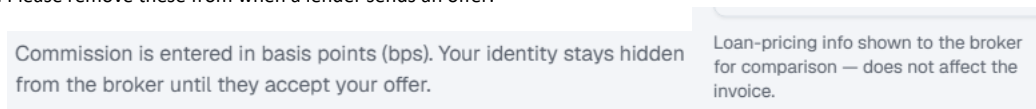

6. In Lender portal please remove this verbiage under New Deals:

7. In lender portal new deals, can you please hide this for now? We may reinstate it later:

8. Please remove these from when a lender sends an offer:

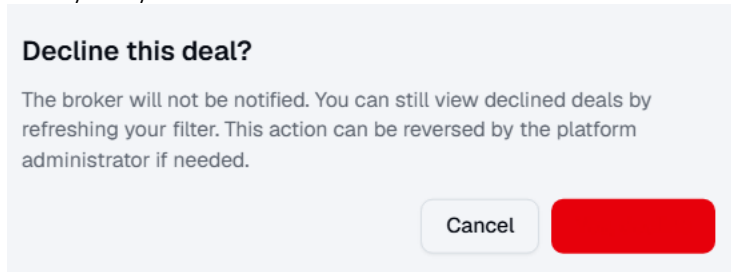

9. Please remove "Rate Lock" from all offers and submitted offers pages. It's a "Commitment Period".
10. This verbiage that a lender sees needs to change, this is more for the broker (but isn't what we said so when I check the broker side I'll address that). Here is should funding of any mortgage matched through the platform, the applicable platform fee (calculated in basis points) shall be reserved by the Lender and paid directly to payment terms specified in the corresponding invoice. The Lender is responsible for ensuring sufficient funds are withheld and remitted when due.":

11. Please remove this at the bottom of lender portal new deals:

12. When I decline a deal, the button is fully red (see below) and also, please change the verbiage to: "The broker will not be notified. The declined deal will be removed from view any deals you have declined."

13. Please change it so if a lender declines a deal, it no longer shows up in their deals.
14. We can no longer see Occupancy in deals on lender side which we should be able to see.

15. When filtering in lenders new deals, if a loan doesn't have a TDS and GDS (which this should be required to submit a loan) when I put numbers in the filter it remo

this can likely also be fixed by just requiring the broker include the GDS and TDS ratios in create deal.

This shouldn't be the case cause it's a max number. If there isn't a

16. When I messaged a broker from the Submitted offers it never went into the messages record:

19. In Submitted offers, the lender can't see the loan details but they should be able to view the same data as in new deal.

21. Please remove this verbiage from submitted offers:

22. In Submitted offers, if the lender withdraws an offer, the button is completely red:

The offer will be marked as withdrawn. The broker will no longer be able to accept it. This action cannot be undone — you would need to submit a new offer if you change your mind.
